## D20ET (2-3 Bedroom home) (20 litres a day)

The D20ET a portable dehumidifier with a capacity suitable for 2-3 bedroom homes or medium size office/retail/commercial area. Moisture removal of 20 litres per day it provides dehumidification which assists in protecting your furniture, precious possessions and décor from the damaging effects of excessive moisture. An added benefit is its three stage air purification system and UV (ultra violet) light resulting in fewer bacteria and viruses in the air. Economical to run with an adjustable humidistat, excellent maneuverability, model design, control panel for easy operation and includes a direct drainage option (require 12mm inner diameter hose).

**Front profile showing UV light**
