CWM DH15 (Wall mounted commercial) (22 litres a day)

The CWM DH15, is a wall mounted dehumidifier with a capacity of 22lts per day and is manufactured in the UK. With its compact size this unit is designed to fit above a standard doorway to control humidity. It has tamper proof controls, an integral humidistat, hot gas defrost for low temperature operation and air filters. The CWM DH15 is particularly suitable for operation in public buildings like museums, galleries or libraries, changing rooms, store rooms and stairwells, cellars and basements.

Front profile

Benefits:
